Subject: Delivery of Portland Harbor Draft FS
cstivers@anchorqea.com

Chip and Kristine – I just wanted to update you on the status of the draft FS delivery in the following formats:

1. Portland Harbor Collaboration Portal – The files are posted and downloadable at this time.
2. Hard copies – Are being delivered via Fed Ex for arrival today to all people on EPA designated mailing list.
3. CD copies – Are being delivered via Fed Ex for arrival today to all people on EPA designated mailing list (for those who requested CD instead of hard copy)
4. Also, we are posting the same files to the LWG public website today.

Note that for electronic pdf files of the draft FS, they comply with EPA accessibility requirements to extent practicable. There are several files that will read in the PDF properties as “not tagged” because one or more of the individual files within the figures were unable to be tagged or the tagging resulted in visual changes to the figures. The affected files include Section 2 Figures, Section 5 figures, Section 6 figures, Appendix A figures, Appendix E figures, Appendix G figures, Appendix Hb figures, Appendix Ja Figures, and Appendix Q, Attachment 1, which is the Milestone Report produced by DEQ. All other elements in these files have been tagged to the extent possible for EPA requirements.

Please let me or Jim McKenna know if you have any questions at all.

Thanks.

Carl
